TRAINING :

FOOD SAFETY INSPECTION TRAINING

« 26-29 AUGUST 2019 »

INTRODUCTION

Food safety inspection is an activity of performing examination or checking on foods, its ingredients, its raw materials, food contact surfaces, transport vehicles and its facilities used for the production, storage, distribution and related processes along the supply chain. This includes the practice of pre and post product testing, to verify that all applicable regulations and requirements are met.

This training is designed for participants to carry out adequate and proper food safety inspection. At the same time, there is a need for a harmonized approach to food inspection for regulators and industry players in consistent with international food safety and quality assurance protocols.
