

SERANTA AWAM ATAS TALIAN BIL 1/2022

CADANGAN PINDAAN
PERATURAN-PERATURAN MAKANAN (PPM) 1985

1. Memasukkan kultur probiotik Bacillus coagulans GBI-30, 6086 di bawah Jadual Kedua Belas A.

<p>JADUAL KEDUA BELAS A</p> <p>(Peraturan 26A)</p> <p>KULTUR PROBIOTIK</p> <p><u>3. Bacillus sp.</u> <u>B.coagulans GBI-30, 6086</u></p>

2. Meminda Peraturan 361 Standard am bagi minuman beralkohol

Regulation 361. General standard for alcoholic beverage.

(1) Alcoholic beverage shall be a liquor containing more than ~~2~~ **0.5** per cent volume per volume of alcohol and includes the food for which a standard is prescribed in regulations 362 to ~~384~~ **384A**, 386 and 386A but does not include denatured spirit or any liquor or any preparation containing more than ~~2~~ **0.5** per cent volume per volume of alcohol for which medicinal properties are claimed.

3. Meminda Peraturan 361 Wain

Regulation 362. Wine.

(1) Wine shall be the product of the partial or complete alcoholic fermentation of ~~grape juice or grape juice and other portions of grapes or the reconstituted product of concentrated grape fruit juice and potable water or a combination of these~~ **fresh grapes, whether crushed or not, or of grape must.** It shall contain not less than 7 per cent volume per volume and not more than 15 per cent volume per volume of alcohol.

(1A) "Grape must" shall be the liquid product obtained naturally or physically processes from fresh grapes. An actual alcoholic strength of the grape must of not more than 1 per cent volume is permissible.

(2) Wine may contain –

- (a) ~~urea~~ and yeast;
- (b) fructose, glucose, glucose syrup, sugar;
- (c) carbon dioxide, nitrogen, oxygen; **and**
- (d) volatile acidity calculated as acetic acid, not including preservative acids, in a proportion not exceeding 1.2 g per liter; **and**
- (e) ~~potable water.~~

~~(3) Wine may contain permitted preservative and permitted food conditioner, including polyvinylpyrrolidone in a proportion not exceeding 60 mg per litre.~~

Peruntukan baru

(7) The word “icewine” or any similar meaning shall not appear in the label of any package containing wine unless the wine has been produced exclusively from grapes naturally frozen on the vine.

4. Meminda Peraturan 363 Wain, koktel, vermouth atau wain aperitif

Regulation 363. Wine cocktail, vermouth, ~~or wine aperitif~~ wine or aromatized wine.

- (1) Wine cocktail, vermouth, ~~or wine aperitif~~ **wine or aromatized wine** shall be wine to which has been added bitter, aromatic or other botanical substance or permitted flavouring substance.
- (2) Wine cocktail, vermouth, ~~or wine aperitif~~ **wine or aromatized wine** –
- a) shall not contain more than 20 per cent volume per volume of absolute alcohol; and
 - b) may contain added ethyl alcohol containing not less than 60 per cent volume per volume of ethyl alcohol.
- (3) ~~Wine cocktail, vermouth or wine aperitif may contain permitted preservative, permitted colouring substance and permitted food conditioner.~~

5. Meminda Peraturan 364 Wain berudara

Regulation 364. Aerated Carbonated wine.

~~Aerated wine~~ **Carbonated wine** shall be wine to which carbon dioxide is artificially added after bottling. It shall comply with the standard for wine prescribed in regulation 362.

6. Meminda Peraturan 367 Wain buah

Regulation 367. Fruit wine.

(2) Fruit wine –

(a) may contain –

- (i) ~~urea and yeast~~;
- (ii) fructose, glucose, glucose syrup, sugar;
- (iii) carbon dioxide, nitrogen, oxygen; and
- (iv) volatile acidity calculated as acetic acid, not including preservative acids, in a proportion not exceeding 1.2 per litre; and

~~(b) shall not contain potable water.~~

~~(3) Fruit wine may contain permitted preservative and permitted food conditioner, including polyvinylpyrrolidone in a proportion not exceeding 60 mg per litre.~~

Peruntukan baru

(5) The word “sparkling” shall not appear in the label of any package containing fruit wine unless the fruit wine contains no carbon dioxide other than that generated during fermentation.

7. Meminda peraturan 369 Sider

Regulation 369. Cider.

~~Cider shall be fruit wine prepared from apples. It shall not contain more than 8.5 per cent volume per volume of alcohol. It shall comply with the standard for fruit wine prescribed in regulation 367.~~

(1) Cider shall be fruit wine prepared from apples.

(2) Cider shall-

(a) contain not more than 8.5 per cent volume per volume of alcohol; and

(b) comply with the standard for fruit wine prescribed in regulation 367 unless otherwise provided in this regulation.

8. Meminda Peraturan 371 Peri

Regulation 371. Perry.

~~Perry shall be fruit wine prepared from pears or from a combination of pears and apples in which the proportion of apple juice does not exceed 25 per cent volume per volume of the aggregate amount of fruit juice. It shall not contain more than 8.5 per cent v/v of alcohol. It shall comply with the standard for fruit wine prescribed in regulation 367.~~

(1) Perry shall be fruit wine prepared from pears or from a combination of pears and apples in which the proportion of apple juice does not exceed 25 per cent volume per volume of the aggregate amount of fruit juice.

(2) Perry shall-

(a) contain not more than 8.5 per cent volume per volume of alcohol; and

(b) comply with the standard for fruit wine prescribed in regulation 367 unless otherwise provided in this regulation.

9. Meminda Peraturan 372 Wain sayur

Regulation 372. Vegetable wine.

- (2) Vegetable wine shall may contain –
- (i) ~~urea and~~ yeast;
 - (ii) fructose, glucose, glucose syrup, sugar;
 - (iii) carbon dioxide, nitrogen, oxygen; and
 - (iv) volatile acidity calculated as acetic acid, not including preservative acids, in a proportion not exceeding 1.2 g per litre.
- ~~(3) Vegetable wine may contain permitted preservative and permitted food conditioner including polyvinylpyrrolidone in a proportion not exceeding 60 mg per litre.~~

Peruntukan baru

- (5) **The word “sparkling” shall not appear in the label of any package containing vegetable wine unless the vegetable wine contains no carbon dioxide other than that generated during fermentation.**

10. Meminda Peraturan 373 Wain madu atau mid

Regulation 373. Honey wine or mead.

- (2) Honey wine or mead may contain –
- (i) ~~urea and~~ yeast;
 - (ii) fructose, glucose, glucose syrup, sugar;
 - (iii) carbon dioxide, nitrogen, oxygen; and
 - (iv) volatile acidity calculated as acetic acid, not including preservative acids, in a proportion not exceeding 1.2 g per litre.
- ~~(3) Honey wine or mead may contain permitted preservative and permitted food conditioner, including polyvinylpyrrolidone in a proportion not exceeding 60 mg per litre.~~

Peruntukan baru

- (4) **No package of honey wine or mead shall be labelled with the word "wine" unless the word "honey" is conjoined in uniform lettering of not less than 10 point with the word “wine”.**
- (5) **The word “sparkling” shall not appear in the label of any package containing honey wine or mead unless the honey wine or mead contains no carbon dioxide other than that generated during fermentation.**

11. Meminda Peraturan 374 Bir, lager, ale atau stout

Regulation 374. Beer, lager, ale or stout.

- (3) Beer, lager, ale or stout may contain **permitted flavouring substance** ~~caramel as a colouring substance, ascorbic acid and not more than 25 mg/kg of sulphur dioxide or sulphite as permitted food conditioner.~~

12. Meminda Peraturan 375 Wain beras

Regulation 375. Rice wine.

- (1) Rice wine shall be the product of the alcoholic fermentation of rice and **with or without** other grain and shall include sake. It shall contain not less than ~~42~~ **7** per cent volume per volume and not more than 20 per cent volume per volume of alcohol.
- (2) Rice wine may contain ~~permitted preservative.~~
- (a) **harmless fruits and vegetable or their juices or with extract with or without sugar; and**
- (b) **permitted flavouring substance.**

Peruntukan baru

- (4) **The word "sparkling" shall not appear in the label of any package containing rice wine unless the rice wine contains no carbon dioxide other than that generated during fermentation.**

13. Meminda Peraturan 376 Tuak

Regulation 376. Toddy.

- (1) Toddy shall be the product obtained from alcoholic fermentation of the sap of the ~~inflorescence of the coconut tree *Cocos nucifera*.~~ **coconut, date or any other kind of palm tree.** It shall contain not less than 7 per cent volume per volume and ~~not more than 10 per cent volume per volume of alcohol.~~

~~Toddy may contain permitted preservative~~

14. Meminda Peraturan 377 Spirit

Regulation 377 Spirit drink

- (1) Spirit **drink shall be the alcoholic beverage** ~~shall be the alcoholic distillate produced by the distillation of liquor or~~ **fermented products of agricultural origin or liquor** and includes **only** the food for which a standard is prescribed in regulations 378 to 384 ~~384A~~.
- (2) Spirit **drink** shall contain not less than 32.5 per cent volume per volume of alcohol.

15. Meminda Peraturan 378 Brandi

Regulation 378. Brandy.

- (1) Brandy shall be the spirit **drink** prepared by the distillation of wine.
- (2) Brandy –
 - (5) shall contain not less than –
 - (i) 35 per cent volume per volume of alcohol; and
 - (ii) ~~60 grammes of ester calculated as ethyl acetate in 100 litres of absolute alcohol; and~~
- (3) Brandy may contain permitted flavouring substance ~~and caramel as a colouring substance.~~

16. Meminda Peraturan 379 Brandi buah

Regulation 379. Fruit brandy

Fruit brandy shall be the spirit **drink** produced by the spirit prepared by the distillation of fruit wine. It shall comply with the standard for brandy prescribed in regulation 378.

17. Meminda Peraturan 380 Rum

Regulation 380. Rum

- (1) Rum shall be the spirit **drink** prepared by the distillation of sugar-cane product which has undergone alcoholic fermentation. It shall not contain not less than 37.5 per cent volume per volume of alcohol.
- (2) Rum may contain ~~caramel as a colouring substance~~ and permitted flavouring substance.

18. Meminda Peraturan 381 Wiski

Regulation 381. Whisky.

- (1) Whisky shall be the spirit **drink** produced by the distillation of cereal or cereal product which has undergone alcoholic fermentation. It shall contain not less than 37.5 per cent volume per volume of alcohol.
- (2) Whisky may contain ~~caramel as a colouring substance~~ and permitted flavouring substance

19. Meminda Peraturan 382 Vodka

Regulation 382. Vodka.

- (1) ~~Vodka shall be the product obtained by the distillation of grain that has undergone alcoholic fermentation.~~ **spirit drink produced by the distillation of fermented product with yeast, from carbohydrate sources such as potatoes, cereals or other agricultural origin.** ~~It shall be treated with charcoal or activated carbon so as to render it without distinctive character, aroma or taste. It shall contain not less than 32.5 per cent v/v of alcohol.~~
- (2) **Vodka shall –**
 - (a) **be without distinctive character, aroma or taste; and**
 - (b) **contain not less than 37 per cent volume per volume of alcohol**
- (3) **Flavoured vodka shall be vodka to which permitted flavouring substance has been added and may contain permitted sweetening substances.**
- (4) **For the purposes of subregulation (3), when vodka has been added with permitted flavouring substance, it shall be construed and labelled as “flavoured vodka”.**

20. Meminda Peraturan 383 Gin

Regulation 383. Gin.

- (1) Gin shall be the spirit **drink** flavoured with juniper berries, with or without other harmless botanical substance.
- (2) Gin –
 - (a) shall contain not less than ~~35~~ **37** per cent volume per volume of alcohol; and
 - (b) may contain added sugar.
- (3) **Gin may contain permitted flavouring substance**

21. Meminda Peraturan 384 Samsu

Regulation 384. Samsu

- (1) Samsu shall be the spirit **drink** produced by the distillation of a fermented mash of rice, sorghum **or other grain** or molasses **or tuber or starchy materials and shall include shochu and sam cheng.** ~~It shall contain not less than 35 per cent volume per volume of alcohol. Sam Cheng and Sochu shall contain not less than 16 per cent volume per volume of alcohol.~~
- (2) **Samsu shall contain not less than 35 per cent volume per volume of alcohol. Sam Cheng and shochu shall contain not less than 16 per cent volume per volume of alcohol.**
- (3) **Samsu may contain permitted flavouring substance.**

22. Memasukkan Peraturan baru 384 Tequila atau mescal

Regulation 384A Tequila or mezcal

- (1) Tequila or mezcal shall be the spirit drink produced from *Agave* species and shall be made in Mexico as in compliance with the laws and regulations of Mexico.
- (2) Tequila or mezcal shall contain not less than 35 percent and not more than 55 per cent of alcohol content.
- (3) The word “silver” and “gold” may be used in the label on a package of tequila or mezcal provided it conform to the requirements established by the relevant authorities in respect of that words.

23. Meminda Peraturan 386 Likeur

Regulation 386. Liqueur.

- (1) Liqueur shall be the product prepared by mixing or distilling spirit **drink** with or over fruits, flowers, leaves or other harmless vegetable substance or their juices or with extracts derived by infusion, percolation or maceration of such harmless vegetable substances. It may contain other food. It shall contain not less than 17 percent volume per volume of alcohol.
- (2) Liqueur may contain ~~permitted colouring substance and permitted flavouring substance.~~

24. Meminda Peraturan 386A Sebastian minuman keras

Regulation 386A Compounded hard liquor

- (1) Compounded hard liquor-
 - (a) shall contain ethyl alcohol from distillate of agricultural origin;
 - (b) may contain spirit **drink** as prescribed in Regulation 377 or ethyl alcohol from fermentation of agricultural origin or both;
 - (c) shall contain equal to or greater than 32.5 per cent volume per volume of alcohol; and
 - (d) shall not be an alcoholic beverage as prescribed in regulations 377 to ~~384~~ **384A** and regulations 386.

25. Meminda Peraturan 387 Syandi

Regulation 387. Shandy.

- (1) Shandy shall be the product prepared from beer and lemonade. It shall contain not more than 2 per cent volume per volume of alcohol and may contain carbon dioxide.
- (2) Shandy may contain ~~permitted preservative, permitted colouring substance, permitted flavouring substance and permitted food conditioner.~~

(3) **General standard for alcoholic beverage specified in subregulations 361(2), (2A), (3), (4), (5), (5A), (7) and (8) shall apply to shandy.**

(4) ~~(3)~~ There shall be written in the label on a package containing shandy **the word "shandy"**.

- a) ~~the word "shandy"; and~~
- b) ~~a statement of the percentage of alcohol in the beverage.~~

(5) ~~(4)~~ The words "soft drink" or other words of similar meaning shall not appear in the label on a package containing shandy.

26. Meminda Jadual Keenam untuk tujuan harmonisasi dengan standard Codex

**SIXTH SCHEDULE
(REGULATION 20)
PERMITTED PRESERVATIVE THAT MAY BE ADDED TO SPECIFIED FOOD AND
THE MAXIMUM PERMITTED PROPORTION IN EACH CASE**

TABLE 1

(1) Food	PRESERVATIVE [maximum permitted proportion in miligram per kilogram (mg/kg)]		
	(2) Sulphur dioxide (or sulphites calculated as sulphur dioxide)	(3) Benzoic acid (or sodium benzoate calculated as benzoic acid)	(4) Sorbic acid (or its sodium, calcium or potassium salts calculated as sorbic acid)
